100ml
treats
50 Litres

- Restores torque & power
- Enhances starting
- Smoother running
- Lower fuel consumption
- Reduces smoke and emissions
- Cleans engines internal parts

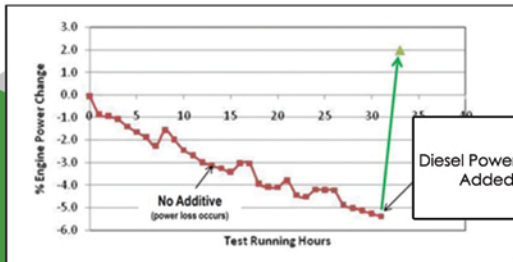

Why worry prior to servicing your boat, car, tractor or generator engine?

Red Diesel composition changed in 2011, Reduced sulphur (natural biocide) and increased Biodiesel (7%) has led to a series of potential issues for diesel boat owners.

When cruising or using your vehicle engines you will at times need to refuel, and as fuel sources cannot always be guaranteed, it is recommended that you check the fuel sources for "Diesel Bug" and other contaminants. It is especially important after winter or prior to the last refuel before winter storage.

OneShot Diesel Power Max was developed to provide a single fuel application to Turbo clean your engine, fuel tank and fuel lines and condition your fuel to remove deposits, enhance burn and decoke engine parts prior to the annual engine service or when performance deteriorates due to dirty fuel or environmental factors.

Containing antioxidants, a cetane booster, improving lubrication of internal engine parts and providing a thorough clean of your fuel and engine, OneShot Diesel Power Max is your engine and fuel Turbo Clean in a tin.

Reduces particulates & emissions

OneShot Diesel Power Max should be added to the fuel tank prior to your annual engine service, ensuring your engine and fuel performs effectively and efficiently.

A 1 Litre bottle of OneShot Diesel Power Max treats up to 500 litres of fuel!
